

# Advanced Authentication 5.6 Patch Update 8 Release Notes

March 2019

Advanced Authentication 5.6 Patch Update 8 resolves specific previous issue. This document outlines why you should install this patch update.

Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [Advanced Authentication forum](#) on NetIQ Communities, our online community that also includes product information, blogs, and links to helpful resources.

The documentation for this product is available on the NetIQ website in HTML and PDF formats. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [Advanced Authentication NetIQ Documentation](#) page. To download this product, see the [Advanced Authentication Product](#) website.

---

**NOTE:** The End of Software Support for Advanced Authentication 5.6 is 31 May 2019. For more information, see [Product Support Lifecycle \(https://www.microfocus.com/lifecycle/\)](https://www.microfocus.com/lifecycle/).

---

## 1 Software Fixes

Advanced Authentication 5.6 Patch Update 8 includes the following software fix:

- ♦ [Section 1.1, "Issue While Migrating a Database," on page 1](#)

### 1.1 Issue While Migrating a Database

**Issue:** While migrating a database from Advanced Authentication 5.6 Patch Update 7 to 6.1 Patch Update 1, an error message "custom\_messages" does not exist is displayed.

**Fix:** Now, the migration issue has been fixed and the database can be migrated from Advanced Authentication 5.6 Patch Update 8 to 6.2.

## 2 Upgrading

You can upgrade to Advanced Authentication 5.6 Patch Update 8 from any one of the following versions:

- ♦ 5.6
- ♦ 5.6 Patch Update 1
- ♦ 5.6 Patch Update 2
- ♦ 5.6 Patch Update 3
- ♦ 5.6 Patch Update 4
- ♦ 5.6 Patch Update 5

- ♦ 5.6 Patch Update 6
- ♦ 5.6 Patch Update 7

---

**NOTE:** After you upgrade to 5.6 Patch Update 8, the Database (DB) slave servers are susceptible to a replication conflict. To resolve this conflict, click **Fix** in the **Conflicts** section on both the DB master and slave servers. Such conflicts will not occur again.

To upgrade from versions prior to 5.6 Patch Update 2 to the latest version, you must first upgrade to 5.6 Patch Update 2 and then migrate using the Export and Import feature.

---

For more information about upgrading, see “[Upgrading Advanced Authentication](#)” in the [Advanced Authentication Installation and Upgrade](#) guide.

## 3 Contact Information

Our goal is to provide documentation that meets your needs. If you have suggestions for improvements, please email [Documentation-Feedback@netiq.com](mailto:Documentation-Feedback@netiq.com). We value your input and look forward to hearing from you.

For detailed contact information, see the [Support Contact Information website](#).

For general corporate and product information, see the [NetIQ Corporate website](#).

For interactive conversations with your peers and NetIQ experts, become an active member of our [community](#). The NetIQ online community provides product information, useful links to helpful resources, blogs, and social media channels.
