

# Advanced Authentication 6.0 Patch Update 1 Release Notes

June 2018

Advanced Authentication 6.0 Patch Update 1 resolves a specific issue.

Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [Advanced Authentication forum](#) on NetIQ Communities, our online community that also includes product information, blogs, and links to helpful resources.

The documentation for this product is available on the NetIQ website in HTML and PDF formats on a page that does not require you to log in. If you have suggestions for documentation improvements, click [comment on this topic](#) at the bottom of any page in the HTML version of the documentation posted at the [Advanced Authentication NetIQ Documentation](#) page. To download this product, see the [Advanced Authentication Product](#) website.

## 1 Software Fixes

Advanced Authentication 6.0 Patch Update 1 includes the following software fix:

- ♦ [Section 1.1, “Advanced Authentication Appliance Does Not Use the Proxy Settings,” on page 1](#)

### 1.1 Advanced Authentication Appliance Does Not Use the Proxy Settings

**Issue:** Previously, Advanced Authentication appliance did not use the proxy settings configured in YaST. Therefore, authentication methods that use the internet connection such as Smartphone, SMS OTP, Voice, and Voice OTP were not redirected through the proxy server.

**Fix:** Now, Advanced Authentication appliance uses the proxy settings. The network traffic of the authentication methods such as Smartphone, SMS OTP, Voice, and Voice OTP are passed through this proxy server.

## 2 Updating

You can update to Advanced Authentication 6.0 Patch Update 1 from Advanced Authentication 6.0.

For more information about updating the appliance, see [“Performing an Online Update”](#) in the [Advanced Authentication Installation and Upgrade](#) guide.

## 3 Contact Information

Our goal is to provide documentation that meets your needs. If you have suggestions for improvements, please email [Documentation-Feedback@netiq.com](mailto:Documentation-Feedback@netiq.com). We value your input and look forward to hearing from you.

For detailed contact information, see the [Support Contact Information website](#).

For general corporate and product information, see the [NetIQ Corporate website](#).

For interactive conversations with your peers and NetIQ experts, become an active member of our [community](#). The NetIQ online community provides product information, useful links to helpful resources, blogs, and social media channels.
