NetIQ Client Login Extension 4.3 Service Pack 1 Release Notes

August 2018

NetIQ Client Login Extension 4.3 Service Pack 1 (4.3.1) resolves some of the previous issues. NetIQ Client Login Extension 4.3.1 improves usability and functionality. This document outlines why you should install this version.

These improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the NetIQ Identity Manager forums, our community Web site that also includes product notifications, blogs, and product user groups.

The documentation for this product is available on the NetIQ website in HTML and PDF formats on a page that does not require you to log in. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the Client Login Extension Documentation page.

1 What's New?

The following outlines the resolved issues in this release:

1.1 Software Fixes

This release includes the following software fixes:

1.1.1 The Title of the Client Login Extension Enrollment Window Is Not Customizable

Issue: The enrollment window title is not customizable in Client Login Extension. The default title is **NetIQ Password Manager**. (Bug 1070666)

Fix: With this release, the `ProdTitleText` registry key is added to the `HKLM\SOFTWARE\Novell\MsPssGina` registry to customize the enrollment window title.

1.1.2 Client Login Extension Installer Displays An Error Message

Issue: Client Login Extension displays the `Logon failure: The user has not been granted the requested logon type at this computer` error message during installation. This issue occurs when Microsoft System Center is used to install Client Login Extension on a system with a user logged-in. (`Bug 1088770`)

Fix: With this release, the `CLECredentialProvider.dll` file is modified to fix this issue.

2 System Requirements

For information about the system requirements, refer System Requirements in the Client Login Extension Administration Guide.

3 Installing Client Login Extension

For information about how to install Client Login Extension, refer Installing the Client Login Extension section in the Client Login Extension Administration Guide.

4 Known Issues

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. There are no known issues in this release. For release specific issues, see previous releases' release notes. If you need further assistance with any issue, please contact Technical Support.
