

NetIQ Identity Manager Analyzer 4.6

January 2017

NetIQ Identity Manager Analyzer 4.6 provides several enhancements and resolves specific previous issues.

Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [Identity Manager Community Forums](#), our community Web site that also includes product notifications, blogs, and product user groups.

You can upgrade to Analyzer 4.6 from Analyzer 4.5, 4.0.1, or later, or perform a new installation. Analyzer 4.6 includes all fixes and features addressed in Analyzer 4.0.2 and later patch releases. For information about what's new in previous releases, see the "Previous Releases" section in the [Identity Manager Documentation Web site](#).

The documentation for this product and the latest release notes are available on the NetIQ Web site on a page that does not require you to log in. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [Identity Manager Documentation Web site](#).

To download this product, see the [Identity Manager Product Web site](#).

3 Installing Analyzer 4.6 <<to be updated>>

After you purchased Identity Manager 4.6, log in to the [Identity Manager Product](#) Web site and follow the link that allows you to download the software. The following files are available:

Table 1 Identity Manager ISO Images

ISO	Platform	Description
Identity_Manager_4.6_Windows.iso	Windows	Contains the DVD image for Identity Manager server, Designer, iManager, Analyzer, Identity Reporting Module, and Identity Applications.
Identity_Manager_4.6_Linux.iso	Linux	Contains the DVD image for Identity Manager server, Designer, iManager, Analyzer, Identity Reporting Module, and Identity Applications.

You can install Analyzer using the product installer or through integrated installation program that bundles the latest versions of all necessary components for Identity Manager. For more information about prerequisites, computer requirements, installation, or upgrade, see [Installing Analyzer](#) in the [NetIQ Identity Manager Setup Guide](#).

To download the installation kits, see the [NetIQ Downloads](#) Web site.

4 Upgrading to Analyzer 4.6 <<to be updated>>

You can upgrade to Analyzer 4.6 from Analyzer 4.0.2 or 4.0.1 using the Analyzer installation program. For the supported upgrade paths for 4.6, see [Preparing to Upgrade Identity Manager](#) in the [NetIQ Identity Manager Setup Guide](#).

You cannot use the integrated installation process to upgrade an existing installation of Analyzer. For more information, see [Upgrading Identity Manager](#) in the [NetIQ Identity Manager Setup Guide](#).

5 Known Issues <<to be updated>>

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. The following issues are currently being researched. If you need further assistance with any issue, please contact [Technical Support \(http://www.netiq.com/support\)](http://www.netiq.com/support).

6 Using the Product Evaluation Key <<to be updated>>

You can try using Analyzer before purchasing the product. For trying the product, enter C064 0010 0000 E203 2CCA evaluation key in the License dialog box after launching Analyzer. The product evaluation key is valid up to 14 days after you start using the product. (728283)

7 Contact Information

Our goal is to provide documentation that meets your needs. If you have suggestions for improvements, please email Documentation-Feedback@netiq.com (<mailto:Documentation-Feedback@netiq.com>). We value your input and look forward to hearing from you.

For detailed contact information, see the [Support Contact Information website](http://www.netiq.com/support/process.asp#phone) (<http://www.netiq.com/support/process.asp#phone>).
