

NetIQ iManager 3.0.3 Patch 2 Release Notes

July 2017

NetIQ iManager 3.0.3 Patch 2 resolves specific previous issues. This document outlines why you should install this patch. Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure our products meet all your needs. You can post feedback in the iManager Community Support Forums, our community Web site that also includes product notifications, blogs, and product user groups.

To view the complete list of resolved issues in NetIQ iManager 3.x, including all patches and service packs, refer to [TID 7016795](#), "History of Issues Resolved in NetIQ iManager 3.x".

For more information about this release and for the latest release notes, see the [iManager Documentation](#) Web site. To download this product, see the [NetIQ Downloads](#) Web site.

1 What's New

iManager 3.0.3 Patch 2 provides the following enhancements and fixes in this release:

1.1 Enhancements

This release includes the following software enhancements:

1.1.1 Support for Dependent Components

- ◆ This version of iManager extends support for Java 1.8.0_131
- ◆ This version of iManager supports Tomcat 8.0.44.

1.2 Fixed Issues

This release includes software fixes for the following components:

1.2.1 Resolved Security Vulnerabilities

This release resolves [CVE-2017-7425](#). Special thanks to Pawel.Batunek@ingservicespolska.pl for finding and reporting this issue.

1.2.2 Unable to Restrict Network Addresses

Issue: User is unable to add a specific IP address in the [Network Address Restriction](#) list.

Fix: This release updates iManager to resolve this issue. (Bug 1030616)

2 System Requirements

For information about prerequisites, computer requirements, installation, upgrade or migration, see [Planning to Install iManager](#) in the [NetIQ iManager Installation Guide](#).

3 Installing or Upgrading

To upgrade to iManager 3.0.3 Patch 2, you need to be on iManager 2.7.7.x and higher.

For more information on upgrading to iManager 3.0.3 Patch 2, see the [iManager Installation Guide](#).

NOTE: To use the latest version of PKI Plug-in, you need to upgrade to the iManager 3.0 SP3.

IMPORTANT: This version of iManager supports only eDirectory 9.0 or above when both are installed on the same machine. If you are upgrading iManager 2.7.7.x to 3.0.3 Patch 2, ensure that your eDirectory is also upgraded to 9.0 or above before upgrading iManager.
