

iManager 3.0 SP3 Release Notes

March 2017

iManager 3.0 SP3 resolves specific previous issues. This document outlines why you should install this service pack. Many of these improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure our products meet all your needs. You can post feedback in the iManager Community Support Forums, our community Web site that also includes product notifications, blogs, and product user groups.

To view the complete list of resolved issues in NetIQ iManager 3.x, including all patches and service packs, refer to [TID 7016795, "History of Issues Resolved in NetIQ iManager 3.x"](#).

For more information about this release and for the latest release notes, see the [iManager Documentation](#) Web site. To download this product, see the [NetIQ Downloads](#) Web site.

- ◆ [Section 1, "What's New," on page 1](#)
- ◆ [Section 2, "System Requirements," on page 2](#)
- ◆ [Section 3, "Installing or Upgrading," on page 2](#)
- ◆ [Section 4, "Known Issues," on page 2](#)
- ◆ [Section 5, "Legal Notice," on page 2](#)

1 What's New

The following sections outline the enhancement and issue resolved in this release:

- ◆ [Section 1.1, "Operating System Support," on page 1](#)
- ◆ [Section 1.2, "Fixed Issues," on page 1](#)

1.1 Operating System Support

In addition to the platforms introduced in previous releases of iManager, this release adds support for the following operating system:

- ◆ RHEL 7.3 (Red Hat Enterprise Linux)

1.2 Fixed Issues

This release includes software fixes for the following components:

1.2.1 Resolved Security Vulnerability CVE-2017-5189

This version of iManager resolves security vulnerability CVE-2017-5189.

1.2.2 The Modify User Option Is Not Displayed

Issue: iManager does not display the **Modify User** option under the list of tasks. (Bug 1026609)

Fix: This issue is fixed.

2 System Requirements

For information about prerequisites, computer requirements, installation, upgrade or migration, see [Planning to Install iManager](#) in the [NetIQ iManager Installation Guide](#).

NOTE: iManager uses the modified version of `XULRunner` on Windows. The source code for the modified `XULRunner` is available under the Mozilla Public License version 2.0. For further assistance, contact [Technical Support \(http://www.netiq.com/support\)](http://www.netiq.com/support).

3 Installing or Upgrading

To upgrade to iManager 3.0 SP3, you need to be on iManager 2.7.7.x and higher.

For more information on upgrading to iManager 3.0 SP3, see the [iManager Installation Guide](#).

NOTE: To use the latest version of PKI Plug-in, you need to upgrade to the iManager 3.0 SP3.

IMPORTANT: This version of iManager supports only eDirectory 9.0 or above. If you are upgrading iManager 2.7.7.x to 3.0 SP3, ensure that your eDirectory is also upgraded to 9.0 or above before upgrading iManager when both are installed on the same machine.

4 Known Issues

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. If you need further assistance with any issue, contact [Technical Support \(http://www.netiq.com/support\)](http://www.netiq.com/support).

For the list of the known issues in iManager 3.0, refer to the [Known Issues](#) section in the respective release notes.

4.1 iManager Does Not Display the Date Picker Buttons on IE 11

Issue: iManager does not display the **OK** and **Cancel** buttons in the date picker window in Internet Explorer 11.

Workaround: There is no workaround at this moment.

5 Legal Notice
