What’s New

This release includes the following enhancements and third-party component updates:

Support for NCI 3.2.0.0100

This release of iManager contains NCI 3.2.0.0100, which adds support for OpenSSL 1.0.2zd. In this version, OpenSSL has fixed a potential security vulnerability. For more information about the issue, refer to [this page](#).

Updates for Third-Party Components

This version of iManager adds support for OpenSSL 1.0.2zd.

Installing or Upgrading

You can either freshly install iManager 3.2.6.0200 or upgrade from iManager 3.2.x to iManager 3.2.6.0200. For more information on installation and upgrading to iManager 3.2.6.0200, see the [NetIQ iManager Installation Guide](#).

IMPORTANT: When you have both eDirectory and iManager installed on the same machine:

- ♦ Before upgrading, you must stop the eDirectory service and the iManager tomcat service
 - ♦ iManager 3.2.6.0200 supports only eDirectory 9.2 or above. If you are upgrading iManager 3.2.x to 3.2.6.0200, ensure that your eDirectory is also upgraded to 9.2 (or above) before upgrading iManager
-
