- ♦ 2.7.7 Patch 4
- ♦ 2.7.7 Patch 5

For information about upgrading iManager, see [Upgrading iManager](#) in the *NetIQ iManager Installation Guide*.

## 4 Known Issues

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. The following issues are currently being researched. If you need further assistance with any issue, contact [Technical Support \(http://www.netiq.com/support\)](http://www.netiq.com/support).

### 4.1 Installing iManager on SLES 11 SP4 Platform Displays a Warning Message

While installing this patch on SUSE Linux Enterprise Server 11 SP4 platform, the installation program displays the following error:

```
The iManager installation program has detected an uncertified platform.
```

It is safe to ignore the error message and continue with the installation.
