

NetIQ SecureLogin 8.6 Hotfix 1 Release Notes

June 2018

NetIQ SecureLogin 8.6 Hotfix 1 (8.6.0.1) resolves some of the previous issues.

These improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [NetIQ SecureLogin forum](#) on NetIQ Communities, our online community that also includes product information, blogs, and links to helpful resources.

The documentation for this product and the latest Release Notes are available on the NetIQ website in HTML and PDF formats on a page that does not require you to log in. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [NetIQ SecureLogin documentation](#) page. To download this product, see the [NetIQ Downloads](#) website.

1 What's New?

This release includes fixes for the following issues:

- ◆ [Section 1.1, "Seamless Sign-on Fails In The Lightweight Directory Access Protocol \(LDAP\) Offline Mode," on page 1](#)
- ◆ [Section 1.2, "SecureLogin Displays Error Message When Runtime Variables Are Accessed," on page 2](#)
- ◆ [Section 1.3, "SecureLogin Displays Error Message When Increment Command Is Used," on page 2](#)
- ◆ [Section 1.4, "Internet Explorer Stops Working When Single Sign-on Script Uses Directory Attribute Variables," on page 2](#)
- ◆ [Section 1.5, "SecureLogin Fails To Start When ActiveClient 7.x Is Installed," on page 2](#)

1.1 Seamless Sign-on Fails In The Lightweight Directory Access Protocol (LDAP) Offline Mode

Issue: When SecureLogin is installed in the LDAP Credential Manager mode, seamless sign-on fails if network is unavailable. (Bug 1053178)

Fix: This issue is fixed in this release.

1.2 SecureLogin Displays Error Message When Runtime Variables Are Accessed

Issue: When SecureLogin accesses the runtime variables that are not configured, the `BROKER_NO_SUCH_ENTRY -102` error message is displayed. (Bug 1090248)

Fix: This issue is fixed in this release.

1.3 SecureLogin Displays Error Message When Increment Command Is Used

Issue: When SecureLogin uses a single sign-on script and the `Increment` command is used to increase the value of a variable, the `BROKER_NO_SUCH_ENTRY -102` error message is displayed. This issue occurs when the `Increment` command is used more than once for the same variable. (Bug 1095191)

Fix: This issue is fixed in this release.

1.4 Internet Explorer Stops Working When Single Sign-on Script Uses Directory Attribute Variables

Issue: When SecureLogin uses a single sign-on script to provide single sign-on to a web application, Internet Explorer stops working. SecureLogin displays the following errors: (Bug 1095187)

1. `BROKER_NO_SUCH_ENTRY(-102)` Error reading attribute "displayName"
2. `BROKER_DS_VARIABLE_NOT_READY(-180)`

Fix: This issue is fixed in this release.

1.5 SecureLogin Fails To Start When ActiveClient 7.x Is Installed

Issue: When SecureLogin is installed with ActiveClient 7.x, SecureLogin fails to start because the `s1broker.exe` service stops working. (Bug 1068058)

Fix: This issue is fixed in this release. If you are using One Time Password feature, set the registries as specified in the [One Time Password](#) section in [NetIQ SecureLogin Administration Guide](#).

2 System Requirements

For information about hardware requirements, supported operating systems, and browsers, see [System Requirements for SecureLogin, NetIQ SecureLogin Quick Start Guide](#).

3 Installing or Upgrading

You can upgrade to SecureLogin 8.6 HotFix 1 only from SecureLogin 8.6. Upgrading to SecureLogin 8.6 HotFix 1 from versions other than SecureLogin 8.6 is not supported. For information about how to install and how to upgrade, see [NetIQ SecureLogin Installation Guide](#).

4 Known Issues

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. For the issues that are currently being researched, refer the [Known Issues](#) section in the [SecureLogin 8.6 Release Notes \(https://www.netiq.com/documentation/securelogin-86/securelogin-86-releasenotes/data/securelogin-86-releasenotes.html\)](https://www.netiq.com/documentation/securelogin-86/securelogin-86-releasenotes/data/securelogin-86-releasenotes.html). If you need further assistance with any issue, please contact [Technical Support](#).
