## What’s Changed?

eDirAPI 1.5 provides the following changes in this release:

### Role-Based Entitlements (RBE)

Identity Console 1.5 comes with Role-Based Entitlements. New REST endpoints have been added to eDirAPI 1.5 to support this feature. RBE helps administrators to assign application-specific permissions and access rights to users depending on their role.

To access the API documentation for Resource Server Mode, see [Resource Server Mode](https://www.netiq.com/documentation/swagger_ui?url=/documentation/edirectory-92/resources/REST_ResourceServerMode.yaml) ([https://www.netiq.com/documentation/swagger\\_ui?url=/documentation/edirectory-92/resources/REST\\_ResourceServerMode.yaml](https://www.netiq.com/documentation/swagger_ui?url=/documentation/edirectory-92/resources/REST_ResourceServerMode.yaml))
