

NetIQ Directory and Resource Administrator REST Services 9.0.2 Release Notes

July 2016

This service pack improves usability and resolves several previous issues.

These improvements were made in direct response to suggestions from our customers. We thank you for your time and valuable input. We hope you continue to help us ensure that our products meet all your needs. You can post feedback in the [Directory and Resource Administrator forum](#) on NetIQ Communities, our online community that also includes product information, blogs, and links to helpful resources.

The documentation for this product is available on the NetIQ Web site in HTML and PDF formats on a page that does not require you to log in. If you have suggestions for documentation improvements, click **comment on this topic** at the bottom of any page in the HTML version of the documentation posted at the [NetIQ Documentation](#) page. To download this product, see the [Directory and Resource Administrator Product Upgrade](#) Web site.

1 System Requirements

This release requires Directory and Resource Administrator 9.0.2.

2 Installing This Version

You must install the Host service on a single DRA server. You can install the other features on the same server or you can distribute them across multiple machines.

The Host service and the other features have specific requirements.

Feature	Requirements
DRA Host Service	Microsoft .NET Framework Update for 4.0 (KB2600211) Microsoft Internet Information Services 7.5 NetIQ Directory and Resource Administrator 8.7.2 or later
DRA REST Endpoints and Service	Microsoft .NET Framework Update for 4.0 (KB2600211) Microsoft Internet Information Services 7.5 NetIQ Directory and Resource Administrator 8.7.2 or later (Console or Server component)
PowerShell Extensions	Microsoft .NET Framework Update for 4.0 (KB2600211) Microsoft PowerShell 2.0 or later
Web Console	Microsoft .NET Framework Update for 4.0 (KB2600211) Microsoft Internet Information Services 7.5

For more information about requirements and installation scenarios, see the *NetIQ DRA REST Technical Reference* included with the installer.

3 Addressed Customer Issues

This release includes the following stabilizing fixes:

- ♦ Resolved an issue that prevented those who upgraded from DRA 9.0 to DRA 9.0.1 from accessing the newest version of the Web Console. (ENG340989)
- ♦ Resolved an issue that prevented the newest version of the Web Console from displaying more than 250 group members. (ENG341356)
- ♦ Resolved an issue that allowed you to use the Web Console to delete a mailbox even though you lack the appropriate powers. (ENG341549)
- ♦ Resolved an issue that prevented the Web Console from supporting an AD or Virtual attribute if its name contained a hyphen. (ENG341342)
- ♦ Resolved an issue with the Web Console's REST server autodiscovery feature. (ENG341002)

4 Contact Information

Our goal is to provide documentation that meets your needs. If you have suggestions for improvements, please email Documentation-Feedback@netiq.com (<mailto:Documentation-Feedback@netiq.com>). We value your input and look forward to hearing from you.

For detailed contact information, see the [Support Contact Information website](http://www.netiq.com/support/process.asp#phone) (<http://www.netiq.com/support/process.asp#phone>).

For general corporate and product information, see the [NetIQ Corporate website](http://www.netiq.com/) (<http://www.netiq.com/>).

For interactive conversations with your peers and NetIQ experts, become an active member of our [community](https://www.netiq.com/communities/) (<https://www.netiq.com/communities/>). The NetIQ online community provides product information, useful links to helpful resources, blogs, and social media channels.
