

NetIQ Identity Manager Designer 4.8.4 Patch 1 Release Notes

October 2021

This version of Designer (4.8.4.0100) provides support for Identity Manager Engine 4.7.5 version. This document outlines the instructions to apply this patch.

For the list of software fixes and enhancements in the previous release, see [NetIQ Identity Manager 4.8.4 Release Notes](#).

What's New?

This release provides support for Identity Manager Engine 4.7.5 version.

Updating Designer

You must be on Designer 4.8.4 at a minimum to apply this update. The update process includes the following tasks:

Online Update (using the Auto Update feature)

You can apply this update using the built-in auto-update feature of Designer. The auto-update feature notifies you of new features available at the Designer Download Site. This feature allows you to download Designer package and software updates when the computer that has Designer installed is connected to the Internet.

- 1 Launch Designer.
- 2 From Designer's main menu, click **Help > Check for Designer Updates**.
- 3 Click **Yes** to accept the Designer updates.
- 4 Restart Designer for the changes to take effect.

Offline Update (Using the download page to apply the update)

This service pack includes a `Identity_Manager_4.8.4_P1_Designer.zip` file for updating Designer. You also can perform an offline update of Designer when the computer that has Designer installed is not connected to the Internet. To perform an offline update, first download this service pack on a local or remote computer and then point Designer to the directory containing the downloaded files.

To update Designer in an offline mode, create an offline copy of the Designer update files and then configure Designer to read the patch updates from the files copied to the local directory.

To create an offline copy of the Designer update files:

- 1 Log in to the computer where Designer is installed.
- 2 Download the `Identity_Manager_4.8.4_P1_Designer.zip` file from the downloads site.
- 3 Extract the downloaded files into a local directory.

To configure Designer to read the patch updates from the local directory:

- 1 Launch Designer.
- 2 From Designer's main menu, click **Windows > Preferences**.
- 3 Click **NetIQ > Identity Manager** and select **Updates**.
- 4 For URL, specify `file:///media/<path_to_update_file>/updatesite1_0_0/`
For a Linux mounted ISO, use the following URL format:
`file:///media/designer48401offline/updatesite1_0_0/`
- 5 Click **Apply**, then click **OK**.
- 6 From Designer's main menu, click **Help > Check for Designer Updates**.
- 7 Select the required updates and click **Yes** to accept and update the Designer.
- 8 Restart Designer for the changes to take effect.

Known Issues

NetIQ Corporation strives to ensure our products provide quality solutions for your enterprise software needs. There are no new issues other than the issues mentioned in the [NetIQ Identity Manager 4.8 Release Notes](#). If you need further assistance with any issue, contact [Technical Support](#).
